DISPOSITION ORDER 2547-014

FROM: Cmdr. I. Petrov, ONI Section III

TO: CAIRN Records Custodian DATE: 2547-02-11

RE: SPINDLE decommission - records disposition

Per review of the SPINDLE decommission, all case material predating the 2547 migration is reclassified RESTRICTED - DISPOSITION HOLD pending further review. Active dependent cases remain on LEDGER. All acquisition-era material, including subject transfer records and program correspondence, is to be retained on this node pending full transfer to permanent archival custody, and is not to be referenced in any active OCPA case file in the interim.

Note for custodian: this is a staging mirror, not the permanent archive. Full decommission of this node was scheduled following transfer completion. Do not treat this system as production infrastructure.

This order does not authorize destruction of the material. Retention only.
